

Clark County Parks & Recreation Presents
A Wetlands Park Evening Lecture

WILDLAND FIRES

Thursday, May 3

6 pm - 8 pm

Photo: JR Manuel

Wildland fires have a relationship and purpose within the environment. Some ecosystems are well adapted to fire and actually need it to maintain health, others are negatively affected and can be devastated by fires. UNLV Professor Scott Abella will explore how fire shapes ecosystems and how they have impacted places like Wetlands Park and lands of the West.
